Subject Index*

A

A, vitamin, tolerance test and fat metabolism disorders in angina pectoris (Beaumont and Lenègre), 163
Actin, myosin and, properties of (Huxley), 788
Activation, ventricular, and repolarization processes (ÂQRS and ÂT), mean manifest electrical axes of, in congenital heart disease: frontal and horizontal planes (Ayala y de Landero, et al.), 889
Africans, urban, variations in blood pressure in two arms of (Slome, et al.), 41
Alternans, electrical, with unusual features (Schamroth, et al.), 900
Amine oxidase inhibitors and angina pectoris (Winsor), 797 (Annot.)
Anesthesiology, instrumentation in, 480 (B. Rev.)
Aneurysm, aortic, abdominal, ruptured, with massive gastrointestinal hemorrhage (Kubota and Moragues), 547
Angina pectoris, amine oxidase inhibitors and (Winsor), 797 (Annot.)
  and congestive failure (Baker), 800 (Annot.)
  and coronary atherosclerosis, critical study of relationship between (Lenègre and Himbert), 539
  management of (Chevalier and Simon), 120
  prophylactic treatment of (Chevalier and Simon), 123
  therapeutic approach to treatment of (Chevalier and Simon), 133
  vitamin A tolerance test and fat metabolism disorders in (Beaumont and Lenègre), 163
Anginal attack, treatment of (Chevalier and Simon), 120
Annotations, 797, 933
Announcements, 162, 318, 482, 802, 942
Aortic aneurysm, abdominal, ruptured, with massive gastrointestinal hemorrhage (Kubota and Moragues), 547
  arch, congenital absence of (Celoria and Patton), 407
  stenosis, hemodynamic results of surgery for (Kraus, et al.), 174
  study with particular reference to indirect carotid pulse recording in diagnosis (Smith, et al.), 527
Aplasia or hypoplasia of one pulmonary artery: radiologic and pulmonary function studies (Fisher and Van Epps), 26
Arch, aortic, congenital absence of (Celoria and Patton), 407
Arms, two, of urban Africans, variations in blood pressure in (Slome, et al.), 41
Arrhythmia, self-sustaining, atrial fibrillation as, independent of focal discharge (Moe and Abildskov), 59
Arrhythmias, cardiac, treatment of, with salts of ethylenediamine tetraacetic acid (EDTA) (Surawicz, et al.), 493
Arterial, coronary, systemic and, pressure response associated with ligation of internal mammary and subclavian arteries, experimental evaluation (Botham, et al.), 719
  flow, coronary, entire, interruption of (Table I) (Badeer and Horvath), 710
  injections, intracoronary, of various roentgenographic contrast media, cardiac effects of (Guzman and West), 597
  lesions, lipomatous, effects of thiouracil and sitosterol on diet-induced hypercholesterolemia and, in rat (Best and Duncan), 214
  obstruction, pulmonary, by emboli of varying size, physiologic discussion of vascular reactions following; pathologic physiology of pulmonary embolism (Nelson and Smith), 916
  pressure, pulmonary, and roentgenographic appearance, relationship between, in mitral stenosis (Moore, et al.), 576
  pulmonary, and reticuloendothelial modifications induced by serotonin in rabbit and in rat (Rossi, et al.), 715
Arteries, internal mammary and subclavian, experimental evaluation of systemic and coronary arterial pressure response associated with ligation of (Botham, et al.), 719
Arteriovenous fistulas, pulmonary schistosomatic, producing new cyanotic syndrome in Manson's schistosomiasis (de Faria, et al.), 556
Artery, coronary, occlusion, experimental, S-T changes influenced by varying concentrations of oxygen in, in dog (I); studies on nature of S-T segment changes (Zao), 88
  work capacity of left ventricle following ligation of (Van Citters), 591
  pulmonary, one, aplasia or hypoplasia of: radiologic and pulmonary function studies (Fisher and Van Epps), 26
Atherosclerosis, coronary, critical study of relationship between angina pectoris and (Lenègre and Himbert), 539
Atmung, der Arbeits-und Trainingseinfluss auf Kreislauf und. Eine klinische und physiologische Betrachtung, 940 (B. Rev.)

*July, pp. 1-162; August, pp. 163-318; September, pp. 319-482; October, pp. 483-644; November, pp. 645-802; December, pp. 803-962.

Atrial fibrillation as self-sustaining arrhythmia independent of focal discharge (Moe and Abildskov), 59
ischemia, temporary, in case of hiatus hernia (Savranoglu and Lemberg), 912
pressure pulse, left, diagnostic value of, in mitral valvular disease (Neustadt and Shaffer), 675
puncture, left, transbronchial, complications of (Crymes, et al.), 46
septal defect, congenital, proved, spatial vectorcardiogram in (Burch and De Pasquale), 319
electrocardiogram and ventricular gradient in (Burch and DePasquale), 190
of ostium secundum type, vectorcardiographic equivalent of "crochetage" of QRS of electrocardiogram in (Rodríguez-Alvarez, et al.), 388
phonocardiography in: correlation between hemodynamics and phonocardiographic findings (Dimond and Benchimol), 343
defects, electrocardiographic changes in: ostium secundum defect versus ostium primum (endocardial cushion) defect (Pryor, et al.), 689
Atrium, isometric curve of (Frank: translated by Chapman and Wasserman), 298
left, and left ventricle, diastolic pressure gradient between, in cases of mitral stenosis (Björk and Malmström), 486
myxoma of, simulating restenosis of mitral valve (Deshmukh, et al.), 623
pressure curve of (Frank: translated by Chapman and Wasserman), 308
Atropine, changes in cardiac output, stroke volume, and central venous pressure induced by, in man (Berry, et al.), 204
effects of, in recumbency (Berry, et al.), 207
Auscultation, use of vasopressor agent as diagnostic aid in (Crevasse), 821
Auscultatory gap and pulse upstroke, relation between (Rodbard and Ciesielski), 221
A-V conduction, supernormal phase of: report of two cases (Jonas), 262
Axes, electrical, mean manifest, of ventricular activation and repolarization processes (ĀQRS and ĀT) in congenital heart disease: frontal and horizontal planes (Ayala y de Landero, et al.), 889

B

Ballistocardiographic forces, effects of respiration on transmission of, from heart to recording system (Dock), 102
Beat, heart, transient bundle branch block occurring during slowing of, and following gagging (Dressler), 760
Bladder, urinary, myocarditis associated with myositis of small intestine and: report of case (Ramos, et al.), 395
Block, bundle branch, left, intermittent "normal" ventricular conduction appearing in: vectorcardiographic study (Bristow, et al.), 905
Block—Cont'd
right, clinical analysis of (Reusch and Vivas), 543
transient, occurring during slowing of heart beat and following gagging (Dressler), 760
heart, partial, variations in form of T wave in case of (Szilagyi and Solomon), 637
Blockade, ganglionic, by trimethidinium methosulphate (Smirk), 701
Blood flow, coronary, nitrous oxide method for determining, in man (Rowe), 268
pressure, variations in, in two arms of urban Africans (Slome, et al.), 41
Book reviews, 159, 479, 939
Bronchial circulation in dogs, simultaneous estimation of right and left ventricular outputs applied to study of (Cudkowicz, et al.), 732
in patients with chronic lung disease, simultaneous estimation of right and left ventricular outputs applied to study of (Cudkowicz, et al.), 743
Brussels Congress of Cardiology, September, 1958; from Symposium on Social Cardiology, 414
Bundle branch block, left, intermittent "normal" ventricular conduction appearing in: vectorcardiographic study (Bristow, et al.), 905
right, clinical analysis of (Reusch and Vivas), 543
transient, occurring during slowing of heart beat and following gagging (Dressler), 760

C

Calcium chloride, effect of, on experimental extrasystoles with constant coupling (Scherf, et al.), 231
Cancellation experiments, on interpretation of (McFee and Parungao), 582
Cardiac arrest, elective, method for, in experimental open-heart surgery: electrocardiographic observations (Feruglio and Ziliotto), 372
arrhythmias, treatment of, with salts of ethylenediamine tetraacetic acid (EDTA) (Surawicz, et al.), 493
effects of intracoronary arterial injections of various roentgenographic contrast media (Guzman and West), 597
illness, chronic, social and psychological problems in patients with (Biörck), 414
muscle, on dynamics of (Frank: translated by Chapman and Wasserman), 282, 467
output, stroke volume, and central venous pressure, changes in, induced by atropine in man (Berry, et al.), 204
patient, factors which influence success of rehabilitation of (Hellerstein), 426
in underdeveloped countries (Padmavati), 418
intereducation and re-education in rehabilitation of (Hellerstein), 425

Cardiology, joint report of Research and Social Committees of International Society of, Session in Brussels, Belgium, September 15-19, 1958 (White, et al.), 448
Social, from Symposium on, Brussels Congress of Cardiology, September, 1958, 414
Cardiomegaly, familial, in association with Wolff - Parkinson - White syndrome (Schiebler, et al.), 113
Cardiovascular disease, epidemiology of (White, et al.), 450
effects of serotonin in man (Whelan), 933 (Annot.)
system, clinical contribution of electrocardiography in mechanical malformations of (Ziegler), 504
Carotid pulse recording, indirect, in diagnosis, study with particular reference to; aortic stenosis (Smith, et al.), 527
Catheterization, intravascular, 939 (B. Rev.)
Cerebrospinal fluid: production, circulation, and absorption, 161 (B. Rev.)
Chest pain, comparative serum transaminase and dehydrogenase activities in (Rodney and Shapiro), 807
Circulation, artificial, with rigid tubes (Frank: translated by Chapman and Wasserman), 302
bronchial, in dogs, simultaneous estimation of, right and left ventricular outputs applied to study of (Cudkowicz, et al.), 732
in patients with chronic lung disease, simultaneous estimation of right and left ventricular outputs applied to study of (Cudkowicz, et al.), 743
pulmonary, 940 (B. Rev.)
with insertion of elastic factors (Frank: translated by Chapman and Wasserman), 472
Circulatory changes, systemic and coronary, in intact dog; hyperthermia (Maxwell, et al.), 854
Clinical-Pathologic Conference (Graettinger, et al.), 765
Conduction, A-V, supernormal phase of: report of two cases (Jonas), 262
ventricular, "normal," intermittent, appearing in left bundle branch block: vectorcardiographic study (Bristow, et al.), 905
Conference, Clinical-Pathologic (Graettinger, et al.), 765
Congestive failure, angina pectoris and (Baker), 800 (Annot.)
Congress of Cardiology, Brussels, September, 1958; from Symposium on Social Cardiology, 414
Contractile structure of muscle (Huxley), 780
Contraction mechanisms (Huxley), 792
muscular (Huxley), 777
Contrast media, roentgenographic, various, cardiac effects of intracoronary arterial injections of (Guzman and West), 597
Coronary arterial, systemic and, pressure response associated with ligation of internal mammary and subclavian arteries, experimental evaluation of (Botham, et al.), 719
artery occlusion, experimental, S-T changes influenced by varying concentrations of oxygen in, in dog (I); studies on nature of S-T segment changes (Zao), 88
work capacity of left ventricle following ligation of (Van Citters), 591
atherosclerosis, critical study of relationship between angina pectoris and (Lenègre and Himbert), 539
blood flow, nitrous-oxide method for determining, in man (Rowe), 268
heart disease, ethnic group differences in, in Singapore: analysis of necropsy records (Danaraj, et al.), 516
long-term prognosis and insurability in (Gubner and Ungerleider), 436
occlusion and myocardial infarction (Snow), 645
systemic and, circulatory changes in intact dog; hyperthermia (Maxwell, et al.), 854
Countries, underdeveloped, cardiac patient in (Padmavati), 418
Coupling, constant, effect of calcium chloride on experimental extrasystoles with (Scherf, et al.), 231
"Crochetage" of QRS of electrocardiogram, vectorcardiographic equivalent of, in atrial septal defect of ostium secundum type (Rodríguez-Alvarez, et al.), 388
Curve, dilution, abnormal, analysis of determinants of; assessment of mitral regurgitation by indicator dilution (Levinson, et al.), 873
isometric, of atrium (Frank: translated by Chapman and Wasserman), 298
isotonic, of ventricle (Frank: translated by Chapman and Wasserman), 299
pressure, in ventricle (Frank: translated by Chapman and Wasserman), 302
of atrium (Frank: translated by Chapman and Wasserman), 308
Curves, isometric, of ventricle (Frank: translated by Chapman and Wasserman), 288
Cyanotic syndrome, new, pulmonary schistosomatic arteriovenous fistulas producing, in Manson's schistosomiasis (de Faria, et al.), 556

D

Dehydrogenase, serum transaminase and, activities, comparative, in chest pain (Rodney and Shapiro), 807
Deutschen Gesellschaft für Kreislaufforschung, Verhandlungen der, 159 (B. Rev.)

Dextrocardia, on variety of "corrected" type of transposition of great vessels associated with. Study of two cases with autopsy report (Espino-Vela, et al.), 250

Diagnosis, clinical, physiologic abnormalities and (Lange), 798 (Annot.)

Diagnostic aid, use of vasopressor agent as, in auscultation (Crevasse), 821

Diastolic pressure gradient between left atrium and left ventricle in cases of mitral stenosis (Björk and Malmström), 486

Digitalis (Mendlowitz), 798 (Annot.)

Digoxin: single versus divided daily maintenance dosage (Church and Marriott), 171

Dilution, indicator, assessment of mitral regurgitation by: analysis of determinants of abnormal dilution curve (Levinson, et al.), 873

Disability from heart disease (Padmavati), 421

Discharge, focal, atrial fibrillation as self-sustaining arrhythmia independent of (Moe and Abildskov), 59

Dog, intact, systemic and coronary circulatory changes in; hyperthermia (Maxwell et al.), 854

normal, of (Burch), 805

Dogs, extent of reversibility of myocardial ischemia in (Savranoglu, et al.), 726

simultaneous estimation of right and left ventricular outputs applied to study of bronchial circulation of (Cudkowicz, et al.), 732

Drugs, various, effect of, on spontaneous and surgically induced ventricular fibrillation in hypothermia (Covino, et al.), 750

E

Editorial, 805

Electrical alternans with unusual features (Schamroth, et al.), 900

axes, mean manifest, of ventricular activation and repolarization processes (ĀQRS and ĀT) in congenital heart disease: frontal and horizontal planes (Ayala y de Landero, et al.), 889

events, effect of infarction on magnitude and orientation of, in heart (Jacobson, et al.), 863

Electrocardiogram and ventricular gradient in atrial septal defect (Burch and De Pasquale), 190

clinical contribution of (Ziegler), 504

interpretation of (Ziegler), 512

proper recording of (Ziegler), 504

vectorcardiogram and, before and after valvulotomy for pulmonic stenosis (Kahn, et al.), 327

vectorcardiographic equivalent of "crochetage" of QRS of, in atrial septal defect of ostium secundum type (Rodríguez-Alvarez, et al.), 388

Electrocardiograms, interpretation of; studies on nature of S-T segment changes (Zao), 90

Electrocardiographic changes following administration of hypertonic saline to dogs (Eliakim, et al.), 97

in atrial septal defects: ostium secundum defect versus ostium primum (endocardial cushion) defect (Pryor, et al.), 689

clinical and, correlations, semiquantitative histopathologic method for study of entire heart for (Lev and McMillan), 140

observations; method for elective cardiac arrest in experimental open-heart surgery (Feruglio and Ziliotto), 372

vectorcardiographic and, diagnoses, comparison of (Mazzoleni, et al.), 660

Electrocardiography and spatial vectorcardiography, universal system of electrode placement for (Helm), 71

and vectorcardiography, fundamentals of, 160 (B. Rev.)

clinical contribution of, in mechanical malformations of cardiovascular system (Ziegler), 504

Electrode placement, universal system of, for electrocardiography and spatial vectorcardiography (Helm), 71

Emboli of varying size, physiologic discussion of vascular reactions following pulmonary arterial obstruction by; pathologic physiology of pulmonary embolism (Nelson and Smith), 916

Embolism, pulmonary, pathologic physiology of: physiologic discussion of vascular reactions following pulmonary arterial obstruction by emboli of varying size (Nelson and Smith), 916

Energy release in muscle (Huxley), 779

Epicardial and thoracic leads, direct: their relationship in man (Barbato, et al.), 238

Ethylenediamine tetraacetic acid (EDTA), salts of, treatment of cardiac arrhythmias with (Surawicz, et al.), 493

Exercise and hyperventilation, reflex venomotor alterations during (Merritt and Weissler), 382

Experiments, cancellation, on interpretation of (McFee and Parungao), 582

Extracellular fluid, total body exchangeable potassium and sodium and, in chronic pulmonary insufficiency (Baum, et al.), 53

Extrasystoles, experimental, with constant coupling, effect of calcium chloride on (Scherf, et al.), 231

F

Failure, congestive, angina pectoris and (Baker), 800 (Annot.)

Familial cardiomegaly in association with Wolff - Parkinson - White syndrome (Schiebler, et al.), 113

Fat metabolism disorders, vitamin A tolerance test and, in angina pectoris (Beaumont and Lenègre), 163

Fibrillation, atrial, as self-sustaining arrhythmia independent of focal discharge (Moe and Abildskov), 59

ventricular, role of acute myocardial hypoxia and ischemic-nonischemic boundaries in (Badeer and Horvath), 706

spontaneous and surgically induced, effect of various drugs on, in hypothermia (Covino, et al.), 750

Filaments, protein composition of (Huxley), 791

Fistulas, arteriovenous, pulmonary schistosomatic, producing new cyanotic syndrome in Manson's schistosomiasis (de Faria, et al.), 556

Fitness, evaluation of, after convalescence (Hellerstein), 428

Fluid, extracellular, total body exchangeable potassium and sodium and, in chronic pulmonary insufficiency (Baum, et al.), 53

Frontal and horizontal planes; mean manifest electrical axes of ventricular activation and repolarization processes (ĀQRS and ĀT) in congenital heart disease (Ayala y de Landero, et al.), 889

G

Gagging, transient bundle branch block occurring during slowing of heart beat and following (Dressler), 760

Ganglionic blockade by trimethidinium methosulphate (Smirk), 701

Gap, auscultatory, and pulse upstroke, relation between (Rodbard and Ciesielksi), 221

Gastrointestinal hemorrhage, massive, ruptured abdominal aortic aneurysm with (Kubota and Moragues), 547

Glomerular lesions, common (Table I) (Kurtz and McManus), 369

Glomerulus, development of (Kurtz and McManus), 358

normal adult, structure of (Kurtz and McManus), 360

pathology of, with special reference to interluminal cell aggregates (Kurtz and McManus), 368

renal, human, reconsideration of development, structure, and disease of (Kurtz and McManus), 357

Granulomatous myocarditis, isolated (Collyns), 630

Great vessels, on variety of "corrected" type of transposition of, associated with dextrocardia. Study of two cases with autopsy report (Espino-Vela, et al.), 250

H

Heart beat, transient bundle branch block occurring during slowing of, and following gagging (Dressler), 760

block, partial, variations in form of T wave in case of (Szilagyi and Solomon), 637

disease, congenital and acquired, valuable diagnostic technique in: intracardiac phonocardiography (Feruglio), 827

mean manifest electrical axes of ventricular activation and repolarization processes (ĀQRS and ĀT) in: frontal and horizontal planes (Ayala y de Landero, et al.), 889

coronary, ethnic group differences in, in Singapore: analysis of necropsy records (Danaraj, et al.), 516

long-term prognosis and insurability in (Gubner and Ungerleider), 436

mortality ratios (actual to expected) (Table I) (Gubner and Ungerleider), 444

disability from (Padmavati), 421

ischemic, management of angina pectoris due to (Chevalier and Simon), 121

effect of infarction on magnitude and orientation of electrical events in (Jacobson, et al.), 863

entire, semiquantitative histopathologic method for study of, for clinical and electrocardiographic correlations (Lev and McMillan), 140

general or routine techniques for opening and study of (Lev and McMillan), 140

in systemic lupus erythematosus (Shearn), 452

Heat production by contracting muscle (Huxley), 778

Hemodynamics and phonocardiographic findings, correlation between; phonocardiography in atrial septal defect (Dimond and Benchimol), 343

Hemorrhage, gastrointestinal, massive, ruptured abdominal aortic aneurysm with (Kubota and Moragues), 547

subarachnoid, spontaneous, simulating acute myocardial infarction (Beard, et al.), 755

Hernia, hiatus, temporary atrial ischemia in case of (Savranoglu and Lemberg), 912

Hiatus hernia, temporary atrial ischemia in case of (Savranoglu and Lemberg), 912

Histopathologic method, semiquantitative, for study of entire heart for clinical and electrocardiographic correlations (Lev and McMillan), 140

Horizontal planes, frontal and; mean manifest electrical axes of ventricular activation and repolarization processes (ĀQRS and ĀT) in congenital heart disease (Ayala y de Landero, et al.), 889

Hypercholesteremia, comparison of treatment of, with nicotinic acid, sitosterol, and safflower oil (Berge, et al.), 849

diet-induced, and lipomatous arterial lesions, effects of thiouracil and sitosterol on, in rat (Best and Duncan), 214

Hypertension, neurogenic (Mandell), 935 (Annot.)

perinephritic, functional distention of kidney in (Swann, et al.), 608

portal, pathology and management of, 160 (B. Rev.)

primary, application of monoamine-oxidase inhibitor, 1-phenyl-2-hydrazinopropane (JB-516), to treatment of (Gillespie, et al.), 1

Hyperthermia: systemic and coronary circulatory changes in intact dog (Maxwell, et al.), 854

Hypertonic saline, electrocardiographic changes following administration of, to dogs (Eliakim, et al.), 97

Hypertrophy, ventricular, left, vectorcardiogram in (Mazzoleni, et al.), 648

Hyperventilation, reflex venomotor alterations during exercise and (Merritt and Weissler), 382

Hypoplasia, aplasia or, of one pulmonary artery: radiologic and pulmonary function studies (Fisher and Van Epps), 26

Hypothermia, effect of various drugs on spontaneous and surgically induced ventricular fibrillation in (Covino, et al.), 750

Hypoxia, acute, after dissection of right and left coronary arteries (Table II) (Badeer and Horvath), 711

myocardial, acute, and ischemic-nonischemic boundaries, role of, in ventricular fibrillation (Badeer and Horvath), 706

I

Idiopathic pericarditis, acute (Singer), 568

Indicator dilution, assessment of mitral regurgitation by: analysis of determinants of abnormal dilution curve (Levinson, et al.), 873

observations on principle of Korner and Shillingford (Carleton, et al.), 663

Infarction, effect of, on magnitude and orientation of electrical events in heart (Jacobson, et al.), 863

myocardial, acute, spontaneous subarachnoid hemorrhage simulating (Beard, et al.), 755

coronary occlusion and (Snow), 645

Inhibitor, monoamine-oxidase, 1-phenyl-2-hydrazinopropane (JB-516), application of, to treatment of primary hypertension (Gillespie, et al.), 1

Inhibitors, amine oxidase, and angina pectoris (Winsor), 797 (Annot.)

Injections, arterial, intracoronary, of various roentgenographic contrast media, cardiac effects of (Guzman and West), 597

Innerer Krankheiten, Differentialdiagnose, 479 (B. Rev.)

Insufficiency, pulmonary, chronic, total body exchangeable potassium and sodium and extracellular fluid in (Baum, et al.), 53

Insurability, long-term prognosis and, in coronary heart disease (Gubner and Ungerleider), 436

International Society of Cardiology, Session in Brussels, Belgium, September 15-19, 1958, Joint Report of Research and Social Committees of (White, et al.), 448

Intestine, small, and urinary bladder, myocarditis associated with myositis of (Ramos, et al.), 395

Intracardiac phonocardiography: valuable diagnostic technique in congenital and acquired heart disease (Feruglio), 827

Intravascular catheterization, 939 (B. Rev.)

Ischemia, atrial, temporary, in case of hiatus hernia (Savranoglu and Lemberg), 912

myocardial, extent of reversiblity of, in dogs (Savranoglu, et al.), 726

Ischemic-nonischemic boundaries, role of acute myocardial hypoxia and, in ventricular fibrillation (Badeer and Horvath), 706

Isometric curves of ventricle (Frank: translated by Chapman and Wasserman), 288

Isotonic curve of ventricle (Frank: translated by Chapman and Wasserman), 299

K

Kidney, functional distention of, in perinephritic hypertension (Swann, et al.), 608

Korner and Shillingford, observations on principle of; assessment of mitral regurgitation by indicator dilution (Carleton, et al.), 663

Körperflüssigkeiten, Physiologie der, 481 (B. Rev.)

Kreislauf und Atmung, der Arbeits-und Trainingseinfluss auf. Eine klinische und physiologische Betrachtung, 940 (B. Rev.)

Kreislaufs, kleinen, die klinische Physiologic des, 161 (B. Rev.)

L

Leads, epicardial and thoracic, direct: their relationship in man (Barbato, et al.), 238

Lesions, arterial, lipomatous, effects of thiouracil and sitosterol on diet-induced hypercholesterolemia and, in rat (Best and Duncan), 214

Letter to editor, 938
Ligation of coronary artery, work capacity of left ventricle following (Van Citters), 591
of internal mammary and subclavian arteries, experimental evaluation of systemic and coronary arterial pressure response associated with (Botham, et al.), 719
Lipomatous arterial lesions, effects of thiouracil and sitosterol on diet-induced hypercholesterolemia and, in rat (Best and Duncan), 214
Lung disease, chronic, simultaneous estimation of right and left ventricular outputs applied to study of bronchial circulation in patients with (Cudkowicz, et al.), 743
Lupus erythematosus, systemic, heart in (Shearn), 452

M

Malformations, mechanical, of cardiovascular system, clinical contribution of electrocardiography in (Ziegler), 504
Mammary, internal, and subclavian arteries, experimental evaluation of systemic and coronary arterial pressure response associated with ligation of (Botham, et al.), 719
Manson's schistosomiasis, pulmonary schistosomatic arteriovenous fistulas producing new cyantotic syndrome in (de Faria, et al.), 556
Mechanical malformations of cardiovascular system, clinical contribution of electrocardiography in (Ziegler), 504
Metabolism, fat, disorders, vitamin A tolerance test and, in angina pectoris (Beaumont and Lenègre), 163
Mitral regurgitation, assessment of, by indicator dilution: analysis of determinants of abnormal dilution curve (Levinson, et al.), 873
observations on principle of Korner and Shillingford (Carleton, et al.), 663
stenosis, diastolic pressure gradient between left atrium and left ventricle in cases of (Björk and Malmström), 486
relationship between pulmonary arterial pressure and roentgenographic appearance in (Moore, et al.), 576
valve, myxoma of left atrium simulating restenosis of (Deshmukh, et al.), 623
restenosis of (Fowler), 934 (Annot.)
valvular disease, diagnostic value of left atrial pressure pulse in (Neustadt and Shaffer), 675
Monoamine-oxidase inhibitor, 1-phenyl-2-hydrazinopropane (JB-516), application of, to treatment of primary hypertension (Gillespie, et al.), 1
Morbus caeruleus, clinical evolution of shunt-operations for: results of 150 operations, in long-term follow-up (Mahaim, et al.), 13
Muscle, cardiac, on dynamics of (Frank: translated by Chapman and Wasserman), 282, 467
general properties of (Huxley), 777
structure visible in electron microscope (Huxley), 782
Muscular contraction (Huxley), 777
Myocardial hypoxia, acute, and ischemic-nonischemic boundaries, role of, in ventricular fibrillation (Badeer and Horvath), 706
infarction, acute, spontaneous subarachnoid hemorrhage simulating (Beard, et al.), 755
coronary occlusion and (Snow), 645
ischemia, extent of reversibility of, in dogs (Savranoglu, et al.), 726
Myocarditis associated with myositis of small intestine and urinary bladder: report of case (Ramos, et al.), 395
granulomatous, isolated (Collyns), 630
Myosin and actin, properties of (Huxley), 788
Myositis of small intestine and urinary bladder, myocarditis associated with: report of case (Ramos, et al.), 395
Myxoma of left atrium simulating restenosis of mitral valve (Deshmukh, et al.), 623

N

Nephrosis, experimental, some metabolic and structural characteristics of (Hartman), 483
Nervous system, sympathetic, surgery of, 160 (B. Rev.)
Neurogenic hypertension (Mandell), 935 (Annot.)
Nicotinic acid, sitosterol, and safflower oil, comparison of treatment of hypercholesteremia with (Berge, et al.), 849
Nitrous-oxide method for determining coronary blood flow in man (Rowe), 268
Novocain therapy in old age, research on, 480 (B. Rev.)

O

Occlusion, coronary, and myocardial infarction (Snow), 645
artery, experimental, S-T changes influenced by varying concentrations of oxygen in, in dog (I); studies on nature of S-T segment changes (Zao), 88
Open-heart surgery, experimental, method for elective cardiac arrest in: electrocardiographic observations (Feruglio and Ziliotto), 372

Operations, 150, results of, in long-term follow-up; clinical evolution of shunt-operations for morbus caeruleus (Mahaim, et al.), 13

Ossification, pulmonary, diffuse (Howard), 935 (Annot.)

Ostium secundum defect versus ostium primum (endocardial cushion) defect; electrocardiographic changes in atrial septal defects (Pryor, et al.), 689

type, atrial septal defect of, vectorcardiographic equivalent of "crochetage" of QRS of electrocardiogram in (Rodríguez-Alvarez, et al.), 388

Output, cardiac, stroke volume, and central venous pressure, changes in, induced by atropine in man (Berry, et al.), 204

Outputs, right and left ventricular, simultaneous estimation of, applied to study of bronchial circulation in dogs (Cudkowicz, et al.), 732

in patients with chronic lung disease (Cudkowicz, et al.), 743

Oxygen, S-T changes influenced by varying concentrations of, in experimental coronary artery occlusion in dog (I); studies on nature of S-T segment changes (Zao), 88

P

Pain, chest, comparative serum transaminase and dehydrogenase activities in (Rodney and Shapiro), 807

Pericarditis, idiopathic, acute (Singer), 568

Perinephritic hypertension, functional distention of kidney in (Swann, et al.), 608

1-Phenyl-2-hydrazinopropane (JB-516), monoamine-oxidase inhibitor, application of, to treatment of primary hypertension (Gillespie, et al.), 1

Phonocardiography in atrial septal defect: correlation between hemodynamics and phonocardiographic findings (Dimond and Benchimol), 343

intracardiac: valuable diagnostic technique in congenital and acquired heart disease (Feruglio), 827

Physiologic abnormalities and clinical diagnosis (Lange), 798 (Annot.)

Physiology, pathologic, of pulmonary embolism: physiologic discussion of vascular reactions following pulmonary arterial obstruction by emboli of varying size (Nelson and Smith), 916

Planes, frontal and horizontal; mean manifest electrical axes of ventricular activation and repolarization processes ($\bar{A}QRS$ and $\bar{A}T$) in congenital heart disease (Ayala y de Landero, et al.), 889

Portal hypertension, pathology and management of, 160 (B. Rev.)

Potassium and sodium, exchangeable, total body, and extracellular fluid in chronic pulmonary insufficiency (Baum, et al.), 53

Pressure, arterial, pulmonary, and roentgenographic appearance, relationship between, in mitral stenosis (Moore, et al.), 576

blood, variations in, in two arms of urban Africans (Slome, et al.), 41

curve, changes of, and of ejected volume through alteration of after - load (Dreser) (Frank: translated by Chapman and Wasserman), 467

volumes with change of load (filling) (Frank: translated by Chapman and Wasserman), 310

in ventricle (Frank: translated by Chapman and Wasserman), 302

of atrium (Frank: translated by Chapman and Wasserman), 308

gradient, diastolic, between left atrium and left ventricle in cases of mitral stenosis (Björk and Malmström), 486

pulse, atrial, left, diagnostic value of, in mitral valvular disease (Neustadt and Shaffer), 675

response, systemic and coronary arterial, associated with ligation of internal mammary and subclavian arteries, experimental evaluation of (Botham, et al.), 719

venous, central, changes in cardiac output, stroke volume, and, induced by atropine in man (Berry, et al.), 204

Prognosis, long-term, and insurability in coronary heart disease (Gubner and Ungerleider), 436

Protein components of muscle (Huxley), 788

Psychological, social and, problems in patients with chronic cardiac illness (Biörck), 414

Pulmonary arterial and reticuloendothelial modifications induced by serotonin in rabbit and in rat (Rossi, et al.), 715

artery, one, aplasia or hypoplasia of: radiologic and pulmonary function studies (Fisher and Van Epps), 26

circulation, 940 (B. Rev.)

embolism, pathologic physiology of: physiologic discussion of vascular reactions following pulmonary arterial obstruction by emboli of varying size (Nelson and Smith), 916

insufficiency, chronic, total body exchangeable potassium and sodium and extracellular fluid in (Baum, et al.), 53

Pulmonary—Cont'd
ossification, diffuse (Howard), 935 (Annot.)
schistosomatic arteriovenous fistulas producing new cyanotic syndrome in Manson's schistosomiasis (de Faria, et al.), 556
Pulmonic stenosis, vectorcardiogram and electrocardiogram before and after valvulotomy for (Kahn, et al.), 327
Pulse, atrial pressure, left, diagnostic value of, in mitral valvular disease (Neustadt and Shaffer), 675
carotid, recording, indirect, in diagnosis, study with particular reference to; aortic stenosis (Smith, et al.), 527
upstroke, relation between auscultatory gap and (Rodbard and Ciesielski), 221
Puncture, left atrial, transbronchial, complications of (Crymes, et al.), 46

Q

QRS of electrocardiogram, vectorcardiographic equivalent of "crochetage" of, in atrial septal defect of ostium secundum type (Rodríguez-Alvarez, et al.), 388

R

Rabbit, pulmonary arterial and reticuloendothelial modifications induced by serotonin in, and in rat (Rossi, et al.), 715
Radiologic and pulmonary function studies; aplasia or hypoplasia of one pulmonary artery (Fisher and Van Epps), 26
Rat, effects of thiouracil and sitosterol on diet-induced hypercholesterolemia and lipomatous arterial lesions in (Best and Duncan), 214
pulmonary arterial and reticuloendothelial modifications induced by serotonin in rabbit and in (Rossi, et al.), 715
Reflex venomotor alterations during exercise and hyperventilation (Merritt and Weissler), 382
Regurgitation, mitral, assessment of, by indicator dilution: analysis of determinants of abnormal dilution curve (Levinson, et al.), 873
observations on principle of Korner and Shillingford (Carleton, et al.), 663
Rehabilitation of cardiac patient, factors which influence success of (Hellerstein), 426
intereducation and re-education in (Hellerstein), 425
Renal glomerulus, human, reconsideration of development, structure, and disease of (Kurtz and McManus), 357
Repolarization processes (ÂQRS and ÂT), mean manifest electrical axes of ventricular activation and, in congenital heart disease: frontal and horizontal planes (Ayala y de Landero, et al.), 889
Respiration, effects of, on transmission of ballistocardiographic forces from heart to recording system (Dock), 102
Restenosis of mitral valve (Fowler), 934 (Annot.)
myxoma of left atrium simulating (Deshmukh, et al.), 623
Reticuloendothelial modifications, pulmonary arterial and, induced by serotonin in rabbit and in rat (Rossi, et al.), 715
Reviewers, acknowledgment to, 803
Roentgenographic appearance, relationship between pulmonary arterial pressure and, in mitral stenosis (Moore, et al.), 576
contrast media, various, cardiac effects of intracoronary arterial injections of (Guzman and West), 597

S

Safflower oil, comparison of treatment of hypercholesteremia with nicotinic acid, sitosterol, and (Berge, et al.), 849
Saline, hypertonic, electrocardiographic changes following administration of, to dogs (Eliakim, et al.), 97
Salts of ethylenediamine tetraacetic acid (EDTA), treatment of cardiac arrhythmias with (Surawicz, et al.), 493
Schistosomiasis, Manson's, pulmonary schistosomatic arteriovenous fistulas producing new cyanotic syndrome in (de Faria, et al.), 556
Septal defect, atrial, congenital, proved, spatial vectorcardiogram in (Burch and De Pasquale), 319
electrocardiogram and ventricular gradient in (Burch and DePasquale), 190
of ostium secundum type, vectorcardiographic equivalent of "crochetage" of QRS of electrocardiogram in (Rodríguez-Alvarez, et al.), 388
phonocardiography in: correlation between hemodynamics and phonocardiographic findings (Dimond and Benchimol), 343
defects, atrial, electrocardiographic changes in: ostium secundum defect versus ostium primum (endocardial cushion) defect (Pryor, et al.), 689
Serotonin, cardiovascular effects of, in man (Whelan), 933 (Annot.)

Serotonin—Cont'd

pulmonary arterial and reticuloendothelial modifications induced by, in rabbit and in rat (Rossi, et al.), 715

Serum transaminase and dehydrogenase activities, comparative, in chest pain (Rodney and Shapiro), 807

Shillingford, observations on principle of Korner and; assessment of mitral regurgitation by indicator dilution (Carleton, et al.), 663

Shunt-operations for morbus caeruleus, clinical evolution of: results of 150 operations, in long-term follow-up (Mahaim, et al.), 13

Singapore, ethnic group differences in coronary heart disease in: analysis of necropsy records (Danaraj, et al.), 516

Sitosterol, effects of thiouracil and, on diet-induced hypercholesterolemia and lipomatous arterial lesions in rat (Best and Duncan), 214

nicotinic acid, and safflower oil, comparison of treatment of hypercholesteremia with (Berge, et al.), 849

Social and psychological problems in patients with chronic cardiac illness (Biörck), 414

Cardiology, from Symposium on, Brussels Congress of Cardiology, September, 1958, 414

Sodium, total body exchangeable potassium and, and extracellular fluid in chronic pulmonary insufficiency (Baum, et al.), 53

Spatial vectorcardiogram in proved congenital atrial septal defect (Burch and DePasquale), 319

vectorcardiography, universal system of electrode placement for electrocardiography and (Helm), 71

S-T segment changes, studies on nature of. I. S-T changes influenced by varying concentrations of oxygen in experimental coronary artery occlusion in dog (Zao), 88

Stenosis, aortic, hemodynamic results of surgery for (Kraus, et al.), 174

study with particular reference to indirect carotid pulse recording in diagnosis (Smith, et al.), 527

mitral, relationship between pulmonary arterial pressure and roentgenographic appearance in (Moore, et al.), 576

pulmonic, vectorcardiogram and electrocardiogram before and after valvulotomy for (Kahn, et al.), 327

Stimulation of muscle, mechanism of (Huxley), 780

Stroke volume, cardiac output, and central venous pressure, changes in, induced by atropine in man (Berry, et al.), 204

Structures, individual, of heart, special methods for study of (Lev and McMillan), 142

Subarachnoid hemorrhage, spontaneous, simulating acute myocardial infarction (Beard, et al.), 755

Subclavian, internal mammary and, arteries, experimental evaluation of systemic and coronary arterial pressure response associated with ligation of (Botham, et al.), 719

Surgery for aortic stenosis, hemodynamic results of (Kraus, et al.), 174

of sympathetic nervous system, 160 (B. Rev.)

vascular, 479 (B. Rev.)

Sympathetic nervous system, surgery of, 160 (B. Rev.)

Syndrome, cyanotic, new, pulmonary schistosomatic arteriovenous fistulas producing, in Manson's schistosomiasis (de Faria, et al.), 556

Systemic and coronary arterial pressure response associated with ligation of internal mammary and subclavian arteries, experimental evaluation of (Botham, et al.), 719

circulatory changes in intact dog; hyperthermia (Maxwell, et al.), 854

T

T wave, variations in form of, in case of partial heart block (Szilagyi and Solomon), 637

Techniques, general or routine, for opening and study of heart at autopsy (Lev and McMillan), 140

Thiouracil and sitosterol, effects of, on diet-induced hypercholesterolemia and lipomatous arterial lesions in rat (Best and Duncan), 214

Thoracic, epicardial and, leads, direct: their relationship in man (Barbato, et al.), 238

Trainingseinfluss auf Kreislauf und Atmung, der Arbeits-und. Eine klinische und physiologische Betrachtung, 940 (B. Rev.)

Transaminase and dehydrogenase, serum, activities, comparative, in chest pain (Rodney and Shapiro), 807

Transbronchial left atrial puncture, complications of (Crymes, et al.), 46

Transmission of ballistocardiographic forces from heart to recording system, effects of respiration on (Dock), 102

Transposition of great vessels, on variety of "corrected" type of, associated with dextrocardia. Study of two cases with autopsy report (Espino-Vela, et al.), 250

Trimethidinium methosulphate, ganglionic blockade by (Smirk), 701

U

Upstroke, pulse, relation between auscultatory gap and (Rodbard and Ciesielski), 221

V

Valve, mitral, myxoma of left atrium simulating restenosis of (Deshmukh, et al.), 623

Valvular disease, mitral, diagnostic value of left atrial pressure pulse in (Neustadt and Shaffer), 675

Valvulotomy for pulmonic stenosis, vectorcardiogram and electrocardiogram before and after (Kahn, et al.), 327

Vascular reactions following pulmonary arterial obstruction by emboli of varying size, physiologic discussion of; pathologic physiology of pulmonary embolism (Nelson and Smith), 916

surgery, 479 (B. Rev.)

Vasopressor agent, use of, as diagnostic aid in auscultation (Crevasse), 821

Vectorcardiogram and electrocardiogram before and after valvulotomy for pulmonic stenosis (Kahn, et al.), 327

in left ventricular hypertrophy (Mazzoleni, et al.), 648

spatial, in proved congenital atrial septal defect (Burch and DePasquale), 319

Vectorcardiographic and electrocardiographic diagnoses, comparison of (Mazzoleni, et al.), 660

equivalent of "crochetage" of QRS of electrocardiogram in atrial septal defect of ostium secundum type (Rodríguez-Alvarez, et al.), 388

study; intermittent "normal" ventricular conduction appearing in left bundle branch block (Bristow, et al.), 905

Vectorcardiography, fundamentals of electrocardiography and, 160 (B. Rev.)

spatial, universal system of electrode placement for electrocardiography and (Helm), 71

Venomotor, reflex, alterations during exercise and hyperventilation (Merritt and Weissler), 382

Venous pressure, central, changes in cardiac output, stroke volume, and, induced by atropine in man (Berry, et al.), 204

Ventricle, isometric curves of (Frank: translated by Chapman and Wasserman), 288

isotonic curve of (Frank: translated by Chapman and Wasserman), 299

left, diastolic pressure gradient between left atrium and, in cases of mitral stenosis (Björk and Malmström), 486

work capacity of, following ligation of coronary artery (Van Citters), 591

pressure curve in (Frank: translated by Chapman and Wasserman), 302

Ventricular activation and repolarization processes (ĀQRS and ĀT), mean manifest electrical axes of, in congenital heart disease: frontal and horizontal planes (Ayala y de Landero, et al.), 889

conduction, "normal," intermittent, appearing in left bundle branch block: vectorcardiographic study (Bristow, et al.), 905

fibrillation, role of acute myocardial hypoxia and ischemic-nonischemic boundaries in (Badeer and Horvath), 706

spontaneous and surgically induced, effect of various drugs on, in hypothermia (Covino, et al.), 750

gradient, electrocardiogram and, in atrial septal defect (Burch and DePasquale), 190

hypertrophy, left, vectorcardiogram in (Mazzoleni, et al.), 648

outputs, right and left, simultaneous estimation of, applied to study of bronchial circulation in dogs (Cudkowicz, et al.), 732

in patients with chronic lung disease (Cudkowicz, et al.), 743

Vessels, great, on variety of "corrected" type of transposition of, associated with dextrocardia. Study of two cases with autopsy report (Espino-Vela, et al.), 250

Vitamin A tolerance test and fat metabolism disorders in angina pectoris (Beaumont and Lenègre), 163

Volume, ejected, changes of pressure curve and of, through alteration of after-load (Dreser) (Frank: translated by Chapman and Wasserman), 467

Volume—Cont'd
stroke, cardiac output, and central venous pressure, changes in, induced by atropine in man (Berry, et al.), 204

W

Wave, T, variations in form of, in case of partial heart block (Szilagyi and Solomon), 637
Wolff - Parkinson - White syndrome, familial cardiomegaly in association with (Schiebler, et al.), 113
Work capacity of left ventricle following ligation of coronary artery (Van Citters), 591

return to, phase of rehabilitation (Hellerstein), 429

X

X-ray diffraction evidence in muscle (Huxley), 787
